DUTIES AND RESPONSIBILITIES:

Incumbent will assist with policy development, will ensure policies are directed toward achieving an effective and efficient administrative and clinical service operation throughout the department/service areas. Incumbent will be expected to exercise high level of organizational management expertise. Responsibilities may include assessing the feasibility of sharing agreements with neighboring government health communities in eliminating duplication of critical but infrequently used behavioral health facilities or services and equipment; assessing the impact of various contract agreements that are in place, giving consideration of the number of contracts and agreements that are in existence, while recognizing the problems connected and/or associated in negotiating the contracts, and evaluating the services provided under those contracts. Review and assess policy measures to strengthen and improve program and/or governmental services and operations, normally done through formulation of critical comments and recommendations regarding proposed legislation slated for consideration; develops program performance monitoring and management systems to comply with applicable laws, regulations and policies; develops and monitors program goals and objectives to ascertain effectiveness and results, i.e. performance; prepares findings and recommendations for management and appropriate legislators. The incumbent may be tasked with or assist with developing or revising the department's clinical policy manual, which most likely requires researching and integrating language and laws paralleling with federal and state regulations. Service improvement most likely would include policy development that involves applicable therapies, such as Dual Diagnosis Capability in Addiction Treatment (DDCAT). This may include finding ways to improve, apply and implement the American Society of Addiction Medicine (ASAM) guidelines on a much larger scale as well as maintaining program standards in alignment with state and federal scope of work and protocols.

Expectations include communicating service delivery accomplishments up to the department and division level; developing internal control mechanisms and guidelines that maintains service unit accountability. Prepares quarterly reviews and findings on service area management issues, i.e. compliance with program plan of operations; manages the departments quality assurance section; attends meeting, represents office and management at tribal, local, state and federal meetings when required. Will develop and oversee the Quality Assurance section for the department.
